About the Contemporary Art Museum St. Louis

The Contemporary Art Museum St. Louis creates meaningful engagement with the most relevant and innovative art being made today. Founded by civic and cultural leaders in 1980, the Museum transformed from a small gallery into an internationally recognized arts institution, now permanently housed in a flexible, open, and inviting building designed by renowned American architect Brad Cloepfil. CAM's distinct architecture reflects the organization's values and supports a dynamic range of exhibitions, public programs, educational initiatives, and community collaborations. The only museum in the region solely dedicated to contemporary art, CAM is one of the preeminent non-collecting institutions of its kind in the United States. We are a site for discovery, a welcoming space, free and open to all. For more information, visit camstl.org.
